

CHANCERY MULTI ACADEMY TRUST

To deliver an outstanding learning experience for all children so they flourish and thrive; enabling them to achieve their own individual excellence.

INVESTMENT POLICY

The Investment Policy in respect of Chancery Multi Academy Trust has been discussed and adopted by the Directors Board

Chair of Board:

Ros Caulfield

Responsible Officer:

CEO - Lise Houldsworth

Agreed and ratified by the Directors Board on: 26th September 2018

To be reviewed: September 2021

1. Aims

This policy aims to ensure that:

- Chancery Multi Academy Trust's funds are used only in accordance with the law, its articles of association, its funding agreement and the Academies Financial Handbook
- The trust's funds are used in a way that commands broad public support
- Value for money (economy, efficiency and effectiveness) is achieved
- Trustees fulfil their duties and responsibilities as charitable trustees and company directors

2. Legislation and guidance

The [Academies Financial Handbook](#) states that academy trusts are required to have an investment policy to:

- Manage, control and track their financial exposure
- Ensure value for money

This policy is based on the Academies Financial Handbook and guidance from [The Charity Commission](#). This policy also complies with our funding agreement and articles of association.

3. Roles and responsibilities

3.1 Academy trustees

Academy trustees will ensure that investment risk is properly managed. When considering whether to make an investment, trustees will:

- Act within their powers to invest, as set out in our articles of association
- Exercise caution in all investments, reducing risk and ensuring that the trust acts with the utmost integrity
- Take investment advice from a professional adviser, as appropriate
- Ensure that exposure to investment products is tightly controlled so that security of funds takes precedence over revenue maximisation
- Ensure that all investment decisions are in the best interests of the trust and command broad public support

Trustees will seek prior approval from the Education and Skills Funding Agency for investment transactions that are novel or contentious.

Novel transactions are those of which the academy trust has no experience, or are outside the range of normal business activity for the trust.

Contentious transactions are those which might give rise to criticism of the

trust by Parliament, the public, and the media.

3.2 The chief financial officer

The chief financial officer (CFO) is responsible for producing cash flow forecasts and for making decisions on investments. The CFO also provides information to the academy trustees, as appropriate.

4. Investment principles

Chancery Multi Academy Trust only invest funds in low risk and easily-accessible accounts. Funds will be placed in bank accounts with a withdrawal notice of no more than 12 weeks.

Risk is managed through diversification of investments, ensuring that the security of funds takes precedence over revenue maximization. Funds will only be placed with banking institutions that are regulated by the Financial Conduct Authority and with good credit ratings.

5. Procedures.

The following people are authorised signatories to transfer funds to be invested:

- Lise Houldsworth - Chief Executive Officer
- Yvonne Hilditch - Chief Finance Officer
- Ann Kowalska - School Business Manager of Pikemere School

Before any funds are invested, the 2 authorised signatories will sign to indicate they agree to the investment. An investment authorisation form can be found in appendix 1.

The following information will be recorded about investments:

- Date
- Amount and description of the investment
- Length of investment
- Interest rates/expected return

The CFO will review interest rates and compare them with other investment opportunities annually.

Cash flow and current account balances will be monitored regularly by the CFO to ensure immediate financial commitments can be met and that the

current account has adequate balances to meet forthcoming commitments.

When there are funds surplus to immediate cash requirements in the current account, we will transfer these to an account with a higher interest rate.

Investments will normally be for a fixed-term that does not exceed one year unless there is a clear rationale for longer-term investment that would benefit the trust.

A maximum of £85,000 will be placed with one financial institution. This is because the first £85,000 of an investment is protected by the Financial Services Compensation Scheme.

Funds, and any interest earned on those funds, will be automatically reinvested unless money is required for immediate or anticipated expenditure.

6. Monitoring arrangements

The CFO monitors the implementation of this policy.

This policy will be reviewed and approved by the academy trustees every three years.
